The Colorado Health Foundation™

Accessibility Statement

We believe that health should be in reach and our mission is to make that a reality for all Coloradans. To achieve that goal, we strive for each user who visits the The Colorado Health Foundation website to have equal access to the information we provide and find the experience rewarding.

How are we making this happen?

To help us make the Foundation website a positive place for everyone, we've been using the Web Content Accessibility Guidelines (WCAG) 2.1 and Section 508 as guidelines and standards for this website. These guidelines explain how to make web content more accessible for people with disabilities, and user friendly for everyone.

The WCAG guidelines have three levels of accessibility (A, AA and AAA). We've chosen Level AA as the target for our website.

How are we doing?

We're working hard to achieve our goal of Level AA accessibility, but we realize there are some areas that still need improving.

Documents & Other Known Issues

We recognize that some Portable Document Format (PDF) documents linked to our website or our logo are not fully accessible. We are in the process of remediating these files. For a report of documents undergoing remediation and an update on progress, please Show email.

We are also in the process of completing fixes that were identified in a recent accessibility audit. For a list of identified issues and an update on progress, please Show email.
