The Colorado Health Foundation™

County Spotlights

Colorado Health Report Card

Health doesn't happen only at the doctor's office. It happens in our homes and our schools and our neighborhoods. It's part of where we work and where we worship, where we shop and where we socialize.

Across Colorado, each community is different. To better understand a community's unique story, the Foundation, in partnership with the Colorado Health Institute, has created a series of county-level Data Spotlights released throughout the 2016 #HealthiestCO Statewide Listening Tour. These Spotlights tell only part of the story of what healthy means to you and your community. County-level Spotlights can be accessed below including all 64 Colorado counties.

County Spotlights
