The Colorado Health Foundation™

Visual Guide to the Integrated Care Issue

Integrating care is not just an abstract debate among policy wonks. Sometimes it's a simple matter of putting mental health counselors chair-to-chair with doctors and nurses, with a dental exam available right nearby. This video walks through the physical layout of fully integrated Colorado providers, and gives visceral lessons on what works.

This video was originally created as a companion to the Spring 2015 issue of Health Elevations.
