Colorado KaleidosCOpe: Clinica Tepeyac on Integrated Care - The Contreras Family

Clinica's behaviorist diagnosed 14-year-old Daniel with depression but due to other symptoms, sent him to the clinic. Within a week he had surgery for a brain tumor. Clinica's staff are monitoring his recovery and his family is receiving counseling.

This video was originally created as part of the 2011-16 Colorado KaleidosCOpe statewide storytelling campaign.
