

The Colorado Health Foundation™

Discover what's important to Coloradans by exploring the Pulse dashboard

Explore the data that is most interesting to you by learning how to use the interactive dashboard for Pulse: The Colorado Health Foundation Poll.

In this video, Heather Ditillo, Director of Education and Training at Boulder Insights, walks us through how to use the Tableau dashboard to reveal both topline findings and a deeper understanding of how specific populations responded to poll questions. [The Pulse dashboard](#) allows users to explore how respondents across geographies, ethnicities, incomes, ages and nine other demographic factors feel about the most pressing issues affecting Coloradans' health and well-being.
