

GUIDE TO THE FORM 990-PF FOR 2017

The Colorado Health Foundation files a Form 990-PF tax return each year with the Internal Revenue Service (IRS). This is a public document that provides information about the Foundation's financial and charitable activities.

Information reported on the Form 990-PF tax return is presented in accordance with IRS reporting rules governing private foundations, primarily cash basis reporting. Audited financial statements are reported on the accrual basis of accounting.

To address the questions we are asked most often, we have organized the information and provided references to the location in the return where the information can be found to provide additional context.

FREQUENTLY ASKED QUESTIONS

1. How much was the Foundation required to distribute in 2017?

The Foundation was required to distribute \$124.7 million in 2017 as shown on page 8, Part XI, line 7 of the Form 990-PF tax return. The required distribution is often referred to as the annual payout requirement, although the technical IRS term for the payout requirement is "distributable amount."

2. How much did the Foundation distribute in 2017?

The Foundation's annual payout requirement for 2017 was \$124.7 million. We met this payout requirement by:

- Distributing \$114.3 million in 2017 for grantmaking, direct charitable activities, administrative expenses, capital costs and program-related investments. This amount is reported on page 8, Part XII, line 4 of the return.
- We met the additional \$10.4 million required payout by using a portion of our available excess distributions (dollars spent beyond our payout requirement in 2016, which amounted to \$26.4 million) that were generated in 2016. The \$26.4 million in excess distributions included \$15.4 million of building costs and an additional \$11 million of qualified distributions to meet our charitable mission.

3. What types of disbursements count toward the Foundation's annual payout requirement?

All reasonable operating expenses count toward the payout requirement, provided they further the charitable work of the Foundation. Operating expenses include administrative expenses, grantmaking, and direct charitable activities, as well as capital costs such as building and equipment. Program-related investments, such as low-interest loans made for charitable purposes, also count toward the payout requirement. The technical term for these expenses is "qualifying distributions."

4. What are Direct Charitable Activities?

Direct charitable activities are charitable efforts undertaken by a foundation directly, rather than through grants awarded to other nonprofit organizations. The expenses of the Foundation's direct charitable activities are reported on page 7, Part IX-A, and detailed as an attachment to the return. These expenses are also included and reported as part of our administrative and operating expenses on page 1, Part I, line 24(d) of the return.

5. How much did the Foundation spend on administrative expenses in 2017?

The Foundation spent \$13.3 million on administrative expenses in 2017. This amount includes the costs of Foundation staff that directly award and administer our grants, but it does not include the expenses of the Foundation's direct charitable activities.

The return does not report administrative expenses separately. The total reported on page 1, Part I, line 24(d) as operating and administrative expenses includes our administrative expenses, direct charitable activities and net expenses from our Graduate Medical Education operating programs.

The Foundation's administrative expenses are reported on lines 13 through 23 of page 1, Part I of the return. In addition, \$6.8 million in direct charitable activities and \$2.1 million of Graduate Medical Education net expenses are also included and reported on lines 13 through 23. Subtracting our direct charitable activity expenses and net expenses from Graduate Medical Education from the total reported on line 24(d) results in \$13.3 million of administrative expense costs.

6. What were the Foundation's administrative expenses in 2017 as a percentage of qualifying distributions?

The ratio of administrative expense (\$13.3 million) to total qualifying distributions (\$114.3 million) was 11.6 percent.

A tax return provides information on the financial health and expenditures of an organization, but it cannot assess the effectiveness of an organization with respect to meeting its objectives. However, one measure of a foundation's organizational efficiency is, in part, the percentage of its total distribution spent on administrative expenses. We believe the Foundation's administrative expense ratio of 11.6 percent compares favorably to other organizations of similar size, operational complexity and programmatic approach.
