TRAUMA INFORMED DESIGN

A PRACTICAL EXAMPLE...
- De-Institutionalization
  - Homelike – may not always be aesthetic, can be a feeling
- Create sense of community
- Fluid and open spaces
- Look and feel open but at the same time be secure
- Colorful
- Maximize daylight
- Access to the nature – physical and visual
- Nothing to create feeling of confinement
- Clear circulation and wayfinding
- Mix of seating – variety of arrangements
- Variety of space types and feelings
  - Accom date individuals, small groups and large groups
- Spaces that are conducive to autonomy and spontinaity
- The housing first model
SITE DESIGN/BUILDING FORM
- TYPICAL DOUBLE LOADED CORRIDOR APARTMENT BUILDING TYPOLOGY
SITE DESIGN/BUILDING FORM
- MODIFY TYPOLOGY IN RESPONSE TO SITE
SITE DESIGN/BUILDING FORM
- MODIFY TYPOLOGY IN RESPONSE TO PROGRAM
