Two-Gen Healthy Start Voucher
SESSION STRUCTURE

• Opening Comments from Panelists
• Moderated Conversation among Panelists
• Table Discussions
• Plenary Q & A
Origin Story:
Healthy Start Voucher

- Obama White House 2010 Convening on Rental Housing
- Housing as the nation’s quarterback to combat poverty
- Array the best evidence based interventions around housing
Origin Story: Healthy Start Voucher

- **A single voucher for what a child most needs:**
  - Pre-natal nutrition support
  - Parent education
  - Family nurse visitation
  - Quality child care

- **And what a family needs:**
  - Community based health care services
  - Quality K-12 education
  - Transportation services and walkable community planning
Origin Story: Healthy Start Voucher

- 10-20 year time horizon

- Through a “healthy community master plan”
  - To improve neighborhood *quality and safety*
  - **People + Place vision:** human services & physical revitalization
  - Requires interagency coordination among housing, health and human service and transportation agencies

- **Revenue Neutral to Federal and Local Governments, BUT**
  - Requires federal interagency pooling of resources
  - Block grant style funding to local jurisdictions
  - Relaxation of competing rules & regs among federal agencies
FRN: WHAT IF......

• Every and any door that a family walks through is the right door to get them access to the full range of services they need?
• Every organization helping that family used the same screening tool?
• Every organization used the same assessment tool?
• Every organization shared the assessment data into a central data warehouse?
• Collectively, we make decisions about how to invest in that family – and all families – based on that data?
FRN Membership

- Members At Large
- Boulder County Public Health
- Boulder County Community Services
- Emergency Family Assistance Association
